CHALLENGE
20/25

**CREATING A CLEANER,
QUIETER, SAFER FUTURE**

Challenge 2025 is our commitment to changing the future of gardening for the better.

If each of us made the small change to battery-powered outdoor tools, it would have a huge positive impact on our environment. Petrol-powered outdoor tools produce more nitric oxide, nitrogen dioxide and carbon dioxide than cars engines.* This insight drives EGO's mission to right this wrong and create a better environment for all.

We believe the future is battery powered - join us in making battery power the number one choice within five short years.

Together, we will build a cleaner, quieter, safer future.

For more information on Challenge 2025 and our five-year vision, visit our website challenge2025.eu.

**CORDLESS
TECHNOLOGY
FOR A
GREENER
FUTURE**

EGO is part of a global manufacturing business established in 1993, employing over 7,000 people and producing over 10 million units each year, which are sold in over 30,000 outlets in 65 countries worldwide. As the specialists in cordless outdoor power equipment, our strength in depth and desire to break new ground has helped EGO achieve exceptional growth while being environmentally conscious.

Launched into Europe in 2014, EGO continues to push the boundaries of cordless technology with a range of award-winning products that are creating a cleaner, quieter and safer future whilst delivering superior performance.

Our commitment to a greener environment

EGO's commitment to innovation is driven by a talented team of over 400 highly qualified technicians responsible for developing and delivering clean, reliable power tools for today's switched-on customers. Our desire to create a greener future isn't limited to the products we develop, it also pervades the ways we operate and the places we work.

In 2004 we installed a 7,000m² Green Roof system to our dedicated R&D facility. This has saved the equivalent of 5 litres of petrol per m² each year. The roof of our Green Power Industrial Park features a 2-megawatt photovoltaic power station.

Known as 'The Blue Roof' the power this generates, year-on-year, saves the equivalent of 755 tonnes of coal, as well as cutting Sulphur Dioxide emissions by 50 tonnes and Carbon Dioxide emissions by 1677 tonnes annually. The Green Power Industrial Park also utilises the latest in ground-source heating, air-conditioning and water-storage technologies. The ground-source heating system alone saves a massive 1 million kWh of electricity annually, the equivalent of 378 tonnes of coal. This cuts Sulphur Dioxide emissions by around 25 tonnes and Carbon Dioxide emissions by 839 tonnes each year.

Our passion for improving the environment won't stop here. This is only the beginning.

THE POWER TO OUTPERFORM PETROL

Introducing the innovative EGO Power+ system from the cordless specialists. EGO Power+ delivers petrol-matching power, just without the noise, fuss or emissions.

Our industry-leading 56V Arc Lithium battery technology offers a new level of performance, giving you the power you need to keep working hard until the job's done.

With impressive run times and fast recharge, there is no need to purchase or store highly flammable fuel, instead, you get the freedom to work emission-free. For total flexibility, all of EGO's 56V Arc Lithium batteries fit every tool in the EGO Power+ 56V range.* Just click in the battery and you're ready to go. When you try this revolutionary cordless system you'll never look back.

SO MANY REASONS TO SWITCH

The EGO Power+ system delivers petrol-matching power without any of the downsides. It's simpler, cleaner, quieter, and with less vibration, it's more comfortable to use. Lower running and maintenance costs means switching to EGO Power+ will lead to long term savings. Plus, with zero emissions during use, you can do your bit to reduce your impact on the environment.

WHY CHANGE FROM PETROL TO EGO POWER+?

FLEXIBLE BATTERY SYSTEM

One EGO battery can power all of your EGO tools

BETTER FOR THE ENVIRONMENT

With zero emissions during use, our 56V Arc Lithium battery gives petrol-matching power but without the fuss and fumes

BETTER FOR YOUR HEALTH

EGO Power+ tools always operate at lower noise and vibration levels than traditional petrol-powered tools

EASY SET UP AND STARTING

No filling up with fuel; with EGO Power+ just click in the battery and get to work

LOWER RUNNING COSTS

The cost of running an EGO Power+ product for a month is around the same as using a 2 stroke product for a day*

SAVE TIME

No more trips to the petrol station. EGO's rapid charger refuels batteries in as little as 30 minutes

FOLD FLAT, EASY STORE DESIGN

Unlike large, heavy petrol mowers, the EGO Power+ fold-flat design makes storage, cleaning and transportation simple

NO PETROL TO STORE

No more dangerous fuel in storage, no more fumes, make more space available for other things

*Based on average daily use of 3 litres of post mix fuel per day

CHOOSE THE RIGHT TOOL FOR ANY TASK

EGO's range of outdoor power equipment is designed to deliver an outstanding level of performance for every outdoor job, providing the right balance of power and usability for domestic, professional and specialist users.

EGO's unique Arc-Lithium cordless technology combines with best-in-class ergonomic design to deliver maximum power and efficiency for working outdoors.

Work smarter. Work healthier.

Any EGO battery will fit any EGO tool (see pages 6-7), so you can choose the right combination to suit your challenge:

- Range of 5 batteries and 1 backpack battery available, so you can choose the optimum power-to-weight ratio for any task
- Belt and back harness-mounted options for lighter working
- Backpack battery options for the most demanding jobs in all weathers

EGO outdoor power equipment allows you to work in a cleaner, quieter and safer way. EGO delivers the power of petrol, without the emissions, noise and vibration associated with petrol-powered products - better for you and better for the environment.

The best battery power, from the cordless specialists.

PETROL-MATCHING PERFORMANCE FOR SMALL TO MEDIUM SIZED GARDENS

A complete range of cordless outdoor power tools, ideal for regular domestic use.

EGO Power+ tools are designed for regular use in small to medium sized gardens. EGO Power+ tools gives domestic users, cordless, petrol-matching power without the noise, fuss or emissions. With EGO's outstanding level of performance built-in as standard - tackle every garden maintenance task with ease.

PROFESSIONAL

HARD-WEARING TOOLS FOR LARGE GARDENS AND PROFESSIONAL USE

A range designed for heavy-duty use, perfect for large garden maintenance and landscaping professionals.

Ideal for everyday use, the EGO Power+ Professional range gives you the edge when facing tougher tasks for longer periods. This range includes additional features, designed to make light work of larger garden maintenance tasks. Whether working in a large garden or tackling commercial jobs, you can rely on EGO Power+ Professional tools to be powerful, hard-wearing and robust.

PROFESSIONAL X

SUPER-TOUGH, SUPER-POWERFUL RANGE FOR PROFESSIONAL AND SPECIALIST USE

A super-tough, super-powerful range of tools designed for garden maintenance professionals, facilities management and specialists.

The EGO Power+ Professional-X range is engineered to work harder, all-day-every-day, in the most challenging conditions. Ergonomic design meets unrivalled power and performance in the Professional-X range. These tools push the boundaries of battery technology, with the power and performance to surpass petrol-powered equivalents. Built to last, the Professional-X range delivers clean, quiet, safe and productive working.

SUPER TOUGH. SUPER POWERFUL. THE EGO PROFESSIONAL-X RANGE

When we created the EGO Power+ Professional-X range we set our standards high. Not content with developing a range of tools that redefined what cordless tools can do - we looked to deliver power and performance that exceeds their petrol-powered equivalents.

Designed to work harder, all-day every day, in the most challenging conditions. This range of high-spec tools and backpack batteries takes petrol-free working to a whole new level, ensuring productivity levels remain high.

Built to last and last

All tools in the Professional-X range are engineered to last longer, so you can cut maintenance time down to a minimum. And because they are quieter, lighter, with no emissions and less vibration, you can work comfortably for longer.

Ultimate flexibility

EGO is a name you can rely on. With a history of cordless power innovation, we know the ability to mix and match batteries, backpacks, harnesses and tools is vital. This level of complete flexibility continues with the Professional-X range.

LESS VIBRATION, LESS NOISE, LESS COST

Another great reason for choosing EGO is that you can power through any job, without the excess physical stresses and strains associated with heavy, noisy and vibrating petrol-powered tools.

A big benefit of choosing EGO's low-vibration cordless tools is how they help users avoid the risk of Hand-Arm Vibration Syndrome (HAVS). Also known as 'Vibration White Finger' it causes painful and disabling disorders of the blood vessels, nerves and joints.

Designed so you can work comfortably all day long

With a smooth brushless motor and fewer moving parts, all EGO Power+ Professional-X tools have been designed to operate with low levels of vibration, often under the 2.5m/s² Exposure Action Value limit (EAV) and well below the Exposure Limit Value (ELV).

This allows you to comfortably work with them all day long without any risk to your health. So, choose EGO Power+ Professional-X and protect yourself every working day.

They are much quieter too

Let's face it. Petrol tools are noisy and daily exposure can lead to hearing loss and also tinnitus – a permanent ringing sensation in the ears. Fortunately the EGO Power+ Professional-X range is much quieter than petrol-powered alternatives, reducing the risk of potential damage, especially over long-term use.

Operating noisy equipment can also lead to an increase in work-related stress. Many factors are known to contribute to this condition and rarely there is a single cause. However, because EGO Power+ Professional-X tools operate at lower sound levels, the working environment is quieter and less stressful for the user.

EGO™
POWER+ BATTERY & CHARGER

WITH THE CAPABILITY TO OUTPERFORM PETROL,
OUR INNOVATIVE RANGE OF BATTERIES AND
CHARGERS DELIVER ALL THE POWER YOU NEED.

EGO POWER+ ARC LITHIUM DELIVERS THE INDUSTRY'S HIGHEST ENERGY CAPACITY*

Our unique patented 56V Arc Lithium technology is designed like no other battery. It's why it performs like no other battery

The innovative design of EGO's 56V Arc Lithium battery out-performs petrol-powered products. It is simpler, cleaner, quieter, safer for the environment and with no emissions and less vibration, safer for you too. Impressive run-times and fast charge-times offer the ultimate in flexibility.

Unique Arc design

Unlike conventional brick-shaped batteries where the cells are packed together, the Arc shaped design increases surface area, places the cells close to the surface and fits onto the outside of EGO tools. This dissipates heat more effectively, preventing overheating and shut-downs.

Why 56V?

Our team of experts has completely revolutionised battery technology to deliver the optimum power and performance for outdoor cordless equipment. Our 56V batteries deliver more usable power than any other hand-held battery. The five portable batteries in our range optimally cover all applications, from leaf blowing to heavy duty cutting.

Fast recharge

All this clever thinking not only delivers the industry's highest energy capacity in a portable hand-held battery. It also means when it's time to recharge, the EGO Power+ 56V Arc Lithium battery is the quickest around.

EGO POWER+ ARC LITHIUM BATTERY, DESIGNED TO MAXIMISE PERFORMANCE

The patented 56V Arc Lithium battery doesn't just manage heat, it maximises cooling

A battery gets hotter the longer it's used. The more power it generates, the more heat is released. Too much heat and the battery will shut down for safety. Heat also degrades cells over time, reducing battery life. That's why batteries must be cooled effectively to increase performance, run time and battery life.

Our batteries have been designed to cool effectively in three innovative ways: mechanically, chemically and electronically.

Increased surface area

The battery Arc shape has been carefully designed to optimise cooling and reduce overheating. Unlike "brick shaped" batteries, the individual battery cells are positioned adjacent to the external housing so heat can be easily transferred away from the cells.

Keep Cool™ Technology

It's not just the innovative Arc design that helps prevent overheating. The battery has another clever way to keep cool. Each and every cell is surrounded by our unique Keep Cool™ phase change material that absorbs heat energy and keeps individual cells at their optimum temperature for longer run times.

Intelligent power

Power is nothing without control. It's why the EGO Power+ 56V Arc Lithium battery is continuously controlled by software and microprocessors within the battery and by the tools' intelligent power management systems. These constantly monitor and optimise each individual cell, to deliver the very best power, performance and run time.

Exterior mounted battery

Unlike other manufacturers, EGO batteries fit onto the outside of the tools and are not encased within the tool, which means they stay cool to deliver longer lasting power. To keep them safe and sound, the electronics are protected from dust and moisture by a resin coating and the cells are packaged in a robust case that absorbs shocks and vibrations.

A BATTERY FOR EVERY TASK

EGO Power+ 56V Arc Lithium batteries

From the lightest 2.5Ah to the largest 10Ah in the range, as the batteries go up in size, so does the power capacity and run time. Whichever model you choose they have all been engineered for optimal performance and designed to fit all EGO tools*.

INDUSTRY-LEADING TECHNOLOGY

OPTIMUM PERFORMANCE

EGO's 56V Arc Lithium technology is perfectly optimised to provide the best balance between required performance and usable power.

INNOVATIVE ARC SHAPE

With a larger heat sink area the Arc shape battery helps to transfer heat away from every cell to stop overheating and maximise run-times.

KEEP COOL™ TECHNOLOGY

Unique phase-change material (on 5.0Ah and below) works to manage the heat transfer on every cell to keep the temperature lower for longer.

EXTERIOR MOUNTED BATTERY

Unique to EGO, helps keep the battery cool for longer lasting power.

INTELLIGENT POWER MONITORING

Internal microprocessors and software control every cell for delivery of optimal power, performance and runtime.

SUPER-FAST RECHARGE

When you finally run out of power an EGO battery can be fully recharged in as little as 30 minutes.

COMPLETE COMPATIBILITY

Every EGO battery works with every EGO tool.**

POWER, COMFORT AND EASE OF USE COMBINED

The ergonomic EGO Power+ backpack harnesses and battery holster are the most comfortable way to enjoy EGO's industry-leading power. An alternative option to attaching the battery directly to the tool, weight is distributed evenly for a lighter, more comfortable way to work.

BH1000 BACKPACK HARNESS

The BH1000 is ideal for taking the weight of the battery from your arms. This provides greater stability and comfort especially when using our larger batteries over prolonged periods.

BHX1000 PROFESSIONAL-X BACKPACK HARNESS

The BHX1000 has been designed with the professional user in mind and when used together with the AFH1500 harness (supplied separately or as part of a kit) provides exceptional comfort for all day use. The BHX1000 is compatible with the Professional-X series and with the ADB1000 adaptor can be used with all other EGO tools. The AFH1500 Harness (supplied separately) is compatible with the BHX1000 and the BAX1500 Professional-X backpack battery.

ABH3000 PROFESSIONAL-X BATTERY HOLSTER, CABLE AND ARBORIST'S STROP

The holster is designed to house the EGO BA2240T 4.0Ah, Battery which is perfectly matched for use with the EGO Power+ Professional-X Top-handle Chainsaw, to deliver optimal torque and power for professional arborists. The safety-strop attachment integrates with the battery cable and belt or harness to keep you and your team safe in the trees.

BACKPACK BATTERIES THAT WORK AS HARD AS YOU DO

Team up your EGO Power+ tools with one of our Lithium-ion backpacks

Balancing exceptional run time with user comfort, EGO's Lithium-ion BAX1500 backpack is ergonomically designed to keep you working all day long. The battery pack can be removed from the harness* allowing the battery to be shared amongst multiple users, each with their own harness for improved hygiene. To ensure optimum performance, efficiency and longevity, these high-energy capacity batteries incorporate intelligent individual cell monitoring and balancing, both when it's powering a tool and when it's recharging.

Designed to perform, built to last

Delivering the run times you demand, EGO Power+ backpack batteries can give you a full day's work** from a single charge. The high-quality cells, with high power rating and high energy density, can handle in excess of 1,000 charge cycles. Plus, with fast recharging, you can go from empty to full in just 3.5 hours.

Flexible performance

They're compatible with all EGO Power+ tools, and as the battery is on the harness and not on the tool, the tools are even lighter and easier to use.

BAX1500 PROFESSIONAL-X BACKPACK BATTERY

The EGO Power+ Professional-X backpack battery delivers the power output and run times needed for demanding jobs. In fact, it outperforms many of the petrol products currently in use. All minus the noise, emissions and vibration.

To ensure the battery's toughness and durability, we tested it to the extreme too. The Professional-X backpack battery can handle the heaviest downpours and still power the tool. Plus, the super robust casing is designed to take all of the knocks you can throw at it.

FROM EMPTY TO FULLY CHARGED IN JUST 30 MINS

With a range of battery sizes available from 2.5Ah to 28Ah, you can choose the power you need to tackle any task. When it's time to recharge, the EGO Power+ rapid charger is the fastest on the market. The intelligent battery control system constantly monitors each cell's power and temperature to deliver the most efficient and quickest charge.

Plus, the fan-cooling system allows the battery to start charging sooner and finish faster. As a result, the time it takes to refuel the battery is often less than the run time you get from a full charge. In fact with the rapid charger, the 2.5Ah battery takes just 30 minutes.

INSTANT POWER WHEN YOU NEED IT

Harness the unrivalled power of EGO's arc lithium battery technology with the EGO Power+ Nexus Escape.

Compatible with any EGO battery the Nexus Escape provides power wherever you need it, whenever you need it.

Built tough with a 240V AC power outlet and 2 USB ports, the Nexus Escape provides flexible power to charge mobile phones, laptops, cameras, lights and other electrical devices up to a maximum output of 150Watts. Ideal for camping trips, beach visits, festivals or for use at home, the Nexus Escape is lightweight and small enough to carry in a rucksack or store in a tent.

With the power to run a 42" television for up to ten hours, charge 27 mobile phones or 5 laptops, the EGO Power+ Nexus Escape can deliver all the power you need, when you need it.

PAD1500E NEXUS ESCAPE POWER INVERTOR

The EGO Power+ Nexus Escape's 240V (150W) AC power outlet and 2 USB ports enable you to charge or power devices such as mobiles, laptops, cameras, lights and other electrical devices, wherever you are.

POWER⁺ MOWER

WITH A RANGE OF CUTTING CAPACITIES,
SELF-PROPELLED MODELS, AND PUSH BUTTON
START, TACKLE ANY SIZE LAWN WITH EASE.

THE POWER OF PETROL WITHOUT THE EMISSIONS

With lower running costs, zero emissions and significantly quieter than a petrol mower, the EGO Power+ mower range offers a variety of key features and cutting capacities to suit any lawn.

The self-propelled motor keeps you in control and makes light work of slopes and undulations. On a single charge our battery gives you up to 1,600 sqm cutting area* (significantly more than the size of 4 tennis courts). Automatic Variable Speed on selected models, delivers optimal cutting speed to maximise battery run time whilst maintaining grass cutting performance for different conditions.

The 3-in-1 functionality lets you drop, bag or mulch clippings (mulching kits are sold separately), while the LED headlights let you work further into the day. The efficient grass collection system, uses all available space in the collection bag, meaning less-frequent emptying. And when you're done, the easy-fold design makes cleaning and storage simple.

AVAILABLE IN A RANGE OF CUTTING WIDTHS
42, 47, 50, and 52 cm cutting width options to suit any size of lawn

HIGH TORQUE, HIGH-EFFICIENCY MOTOR
For operation in all conditions

LED HEADLIGHTS
Work further into the day

SELF-PROPELLED MOTOR
Take the strain out of mowing sloping ground

PUSH BUTTON START
Power up in seconds

QUICK RELEASE TELESCOPIC HANDLE
For easy cleaning and compact storage

BAG FULL INDICATOR
Lets you know when the bag needs emptying

ADJUSTABLE HANDLE HEIGHT
Easily adjusts to suit you, and the job in hand

LARGE CAPACITY BAG
Collects more grass and requires emptying less frequently

LARGE DIAMETER WHEELS
For easy motion on different terrains

6-POSITION SPRING LOADED DECK HEIGHT ADJUSTMENT
Easily set different grass cutting heights from 20-95mm

FOLDS IN SECONDS
For convenient storage and easy cleaning

A MOWER FOR EVERY LAWN. THE RIGHT TOOL FOR THE JOB

The EGO Power+ mower range showcases a variety of specifications designed to make lawn care quicker, easier and more efficient. And with model sizes ranging from 42cm to 52cm cutting width, there's an option for every task and size of lawn.

Technologically advanced in every way, each mower packs incredible petrol-matching power as standard. Thanks to our revolutionary Arc Lithium 56V battery system, they make minimal noise, emit zero emissions, and start up at the touch of a button.

While these benefits apply to all EGO Power+ mowers, key differences make some models better suited to specific kinds of gardens.

Check out our handy diagram above to identify the size of lawn you can cut on a single charge, and therefore the mowers that are suitable for you.

CHOOSING THE RIGHT MOWER:

Small, tight spaces, or close to trees

For smaller spaces and improved precision around obstacles, mowers with a smaller cutting capacity are ideal.

LESS ROOM TO WORK WITH?

Our compact 42cm models LM1700E or LM1700E-SP are perfect for smaller spaces.

Bigger, open spaces

A mower with a wider cutting capacity will help you cover more ground in fewer passes. Opting for a bigger battery will increase run time, as will variable automatic cutting speed control. For a faster cut, a larger capacity bag can collect more grass and needs emptying less often.

LARGER LAWN?

Try our 52cm model LM2130E-SP which makes even the biggest jobs feel small.

Sloping ground

Using a self-propelled mower takes the strain out of pushing the mower uphill.

Additional comfort

If comfort is a priority, poly deck models are the lightest option. Self-propelled mowers require less effort, and with an adjustable handle, you can decide on the most suitable height.

Finishes

The EGO Rear Roller Kit is a simple and effective way of enabling your EGO mower to stripe your lawn, giving you a manicured look whilst keeping the versatility of being able to mulch and rear discharge clippings.

Only available for certain models. AR1900 - LM1900E-SP AR1700 - LM1700E and LM1700E-SP

Grass collection

There are 3 different ways that EGO Power+ mowers deal with cut grass. Great for lawns that aren't too thick, mulching redistributes grass particles and fertilising nutrients. Drop cuttings or rear discharge (only available on the metal deck mower) allows for quicker mowing through thick and long grass. Bag collection keeps lawns clear of any cuttings.

EGO[™]
POWER⁺ CHAINSAW

BUILT FOR THE TOUGHEST JOBS, POWERED BY
OUR 56V ARC LITHIUM BATTERY TECHNOLOGY,
NOTHING GETS IN THEIR WAY.

BUILT FOR THE TOUGHEST TASKS

The EGO Power+ chainsaws are built to tackle even the hardest jobs. Trunks, logs, branches, nothing gets in their way.

Choose simple, safe Auto Chain Tensioning to maintain proper tension during use or opt for tool-free chain tensioning for easy set up and adjustment. Check the lubrication level through the oil inspection window and you're ready to go.

The electronic chain brake protects against kickback while you work. And the auto-lubrication system keeps the chain spinning freely at all times.

Plus with EGO's 56V Arc Lithium battery delivering such an impressive run time and incredible power on a single charge, it'll keep you working cut after cut.

AUTO CHAIN TENSIONING

SIMPLE, SAFE CHAIN TENSIONING

The EGO Power+ 18 inch chainsaw with Auto Chain Tensioning is built to tackle tough jobs. With a high speed 20m/s chain speed and a powerful motor, nothing will get in its way.

All guesswork is removed when it comes to the correct chain tension thanks to an auto tensioning feature. When replacing or tensioning the chain, simply loosen the sprocket cover on the saw, re-tighten and you're ready to go.

SIMPLE ADJUSTMENT

For safe and effective chain tensioning

INTELLIGENT TREE SURGERY

'Best in class' power, performance and design. EGO's arborist-specialist tool from the Professional-X range, the EGO CSX3000 Top Handle Chainsaw is designed to tackle the challenges of all-day professional use.

With industry-leading Arc-Lithium battery technology at its heart, the Top Handle Chainsaw provides unrivalled power, torque and chain speed, whilst benefitting from long run-times and fast recharge. And with no pull-chord, no need to run the tool in idle and no hot exhaust, switching to EGO Arc-Lithium power makes more sense than ever.

A unique Chain-Brake Safety System is a cutting-edge combination of mechanical and electronic technology reducing the risk of injury, stopping the tool's motor faster if kickback occurs.

Additional features on the tool make working at height even easier – the Battery-Level Indicator Light alerts you when 10% of battery power is left, while the visible Oil Indicator Light comes on when the tool needs a top up.

Suitable for every tree-top job with a range of chain bars available, from 12" - 16", the EGO Top Handle Chainsaw makes the task in hand, easier, cleaner, quieter and safer.

It's time to get to grips with the new best in class.

IMPRESSIVE USER COMFORT AND SAFETY

TELESCOPIC POLE SYSTEM

MAXIMUM REACH, MANOEUVRABILITY
AND CUTTING POWER FOR HIGH
BRANCHES AND HEDGES

POWER+ PROFESSIONAL X TELESCOPIC POLE SYSTEM

THE FLEXIBILITY TO CUT HIGH BRANCHES OR HEDGES

EGO's telescopic pole system enables you to work on those harder to reach jobs without the need for platforms or ladders.

The telescopic pole has a tool-free interchangeable head system which can be set up to work with either the pruning saw or hedge trimmer attachment in just a few seconds.

The telescopic pole houses the battery and dual-trigger controls and has an extendable reach up to 4 metres.

There are several trigger points to provide great reach and maneuverability relevant to the application.

When fully extended the tool meets the maximum allowable lengths, with great balance, articulation and ergonomics.

IN-LINE BATTERY POSITION

POWER⁺ LINE TRIMMER
& BRUSH CUTTER

THE PERFECT COMBINATION OF POWER, BALANCE
AND COMFORT, OUR LINE TRIMMERS AND
BRUSH CUTTER CUT EVERY JOB DOWN TO SIZE.

TRIM WITH POWER AND CONTROL

Powered by the 56V Arc Lithium battery, EGO Power+ line trimmers give you all the power you need to tackle the toughest jobs. The quick-adjust loop-handle can be positioned for optimum balance and control, while the large cutting swathe cuts any task down to size. Plus, the variable speed control ensures consistent trimming every time.

Built with ease-of-use in mind, ergonomic design, super-fast charging and groundbreaking Powerload™ technology* combine to create a truly revolutionary tool.

EGO's range of Line Trimmers includes options suitable for different types of terrain and even the toughest rough ground; wider handles for control over larger areas and bigger tasks, single-shoulder and double-shoulder harnesses for extra comfort and support, plus a Brush Cutter blade head for tackling tougher undergrowth.

PROTECT THE AREA AROUND YOU

The EGO Professional-X Rotocut attachment cuts through grass, weeds and moss on concrete, pathways and verges with ease.

Featuring two counter-rotating blades instead of line, it maximises run-time and reduces vibration. Most importantly, it prevents debris from being thrown, making it ideal for use in built-up areas where risk of damage or injury is particularly acute. With a low profile on the gear box, it can take on the most difficult to reach areas.

The base plate is mounted on bearings, increasing the overall life of the tool and reducing pavement damage. The blades have been designed to ensure clean and efficient cutting performance whilst maintaining durability.

Rotocut can be used with any rear motored tools or EGO line trimmer multi tools, making it the ultimate attachment for added precision and protection.

RTX2300 PROFESSIONAL-X ROTOCUT

Rotocut's flat design and simple attachment process means it can fit to most rear motor brush cutters and line trimmers on the market.

EGO™
POWER+ HEDGE TRIMMER

LIGHT, YET POWERFUL, OUR NEXT GENERATION OF CORDLESS HEDGE TRIMMERS GIVE YOU ALL THE COMFORT AND CONTROL YOU NEED TO GET THE JOB DONE.

COMPACT WITHOUT COMPROMISE

They may be compact, but they don't compromise on power. Brought to life by a 12V Lithium-Ion battery, the EGO Power+ shrub/grass shears are ideal for everyday garden maintenance.

With two attachments included, use the shrub blade to shape and maintain smaller hedges and ornamental trees, or switch to the grass trimmer blade to tackle areas of grass that mowers can't reach. A lightweight, ergonomic design allows for unparalleled precision in either mode, so you can get the perfect result every time.

Simple to use and easy to store, they're an essential addition to every gardener's arsenal.

BALANCED, PRECISE, POWERFUL

Engineered to deliver impressive cutting ability from a single charge, the EGO Power+ Hedge Trimmer's well-balanced design and clever features makes working outdoors easier and more comfortable.

The rotating handle and dual trigger system provide enhanced user comfort and safety. While the smooth and quiet brushless motor and gearbox gives you all the power you need, without the vibration, emissions and noise of a petrol engine.

EGO hedge trimmer blades are laser cut, diamond ground and double sided for clean, precise cutting. All blades have large cutting capacities for tackling thicker hedges and are available in 51cm to 65cm lengths, to suit every size of hedge. Blade-tip protection stops damage from fences and walls.

For safer working, the safety blade guard helps prevent injuries while the electric brake stops the blades when the trigger is released.

EGO™
POWER+ BLOWER & SNOW THROWER

WITH HIGH-EFFICIENCY BRUSHLESS MOTORS AND JET TURBINE TECHNOLOGY, EGO POWER+ BLOWERS AND SNOW THROWER OFFER MAXIMUM AIRFLOW WITH MINIMUM EFFORT.

BLOWS PETROL-POWERED BLOWERS OUT OF THE PARK

Powered by a high-efficiency brushless motor, EGO Power+ blowers feature jet turbine technology and a large diameter tube to give maximum airflow.

Significantly quieter and with zero emissions, the EGO range of blowers offer a genuine alternative to petrol power.

Designed to keep you in control - from low speed, low volume airflow for those delicate areas, to high speed, high volume airflow for hard-to-shift wet leaves and objects. With more power than most handheld petrol blowers on the market, that's more than enough to clear up even the biggest windfall.

VARIABLE SPEED CONTROL
Adjust between 440m³/h and 675m³/h output

BOOST MODE
For a 986m³/h petrol-blower beating output

FLAT NOZZLE ATTACHMENT
Ideal for wet leaves

HIGH-EFFICIENCY BRUSHLESS MOTOR
Delivers more power and greater run time

TURBINE FAN ENGINEERING
Utilises advanced aeronautics technology

LARGE BLOWER TUBE
Greater diameter delivers maximum airflow

THE BACKPACK BLOWER THAT PACKS A PUNCH

Big jobs need big power. And that's what the EGO Power+ backpack blower delivers. With the ability to blow over 1020m³ of air per hour on Max mode, the leaves don't stand a chance. With up to 2 hours run time* you can cover plenty of ground too.

But there's more to this clever blower than simply packing a punch. The smooth brushless motor significantly reduces vibration compared to its petrol-powered equivalents. It's a lot quieter too. The comfortable padded backpack frame supports the blower, taking the strain off your arm and distributing the weight more ergonomically, making the backpack blower perfect for those really big jobs.

LB6000E BACKPACK BLOWER

The hugely powerful, yet ergonomic design is easy to use and packed with all the features you need.

EFFICIENT SNOW CLEARANCE IN THE MOST EXTREME CONDITIONS

The new EGO POWER+ Professional 2-Stage Snow Thrower delivers the power and performance of equivalent petrol-powered products, without the noise, fuss and emissions.

Peak Power™ technology combines the power of any two EGO 56V Arc Lithium™ batteries to tackle the toughest snow conditions with ease - two batteries are used to provide maximum power when tackling tougher jobs. Variable-speed self-propelled control ensures ease of use, while a reverse gear makes getting out of tight spots easier.

The 61cm clearing-width and 51cm intake-height can handle even the deepest snow quickly. More than 35cm depth of snow can be cleared with ease from an 8-car driveway, while the 4 LED lights help make early morning or evening clearing easy. Variable-speed augers and 200° chute adjustment give you complete control of direction and throwing distance of up to 13 metres, while the on-board controls are easy to operate, even when wearing bulky winter gloves.

ONE REVOLUTIONARY POWER UNIT. SO MANY WAYS TO USE IT.

01 HEDGE TRIMMERS

With a choice of standard or short pole lengths available, tackling high or low hedges is made easy. The head angle is adjustable to suit the job at hand and allows for compact storage.

06 EDGER

Give lawns a professional finish with the edger attachment. Ideal for neatening edges along paths, driveways or flowerbeds.

02 POLE SAW

Slices through tree branches fast and efficiently. Combine with the carbon fibre extension pole to reach further and cut more.

07 CULTIVATOR

The cultivator prepares soil prior to planting. Removing weeds and introducing air, it creates a loose bed, encouraging the growth of healthy plant life.

03 LINE TRIMMER

Trim grass along fences and walls with precision. Includes our Rapid Reload head, making it easy to replace line.

08 BRISTLE BRUSH & PADDLE BROOM

The bristle brush makes short work of sweeping away moss, wet leaves and ingrained dirt, whilst the paddle broom makes it easy to clear away standing water.

04 BRUSH CUTTER

The brush cutter is built to deal with difficult undergrowth. From thick grass to tough weeds, it cuts through the toughest tasks with ease.

09 OLIVE SHAKER

Shake ripe olives off branches at approximately 2000 strokes per minute, with 10 replaceable carbon fibre fingers, a durable and market tested gearbox and integrated lubrication for simple maintenance.

05 ROTOCUT

Cuts through grass, weeds and moss on concrete, pathways and verges with ease. Featuring two counter-rotating blades, preventing debris from being thrown.

10 SNOW SHOVEL

The Snow Shovel is excellent for clearing snow quickly from patios, decks and driveways.

HTA2000
HEDGE TRIMMER ATTACHMENT

Laser cut, diamond ground blades and simple angle adjustment makes this trimmer as precise as it is powerful.
